RESEARCH EXPERIENCE

UNC-Chapel Hill, Dept. of Health Behavior

Chapel Hill, NC

Postdoctoral Fellow

August 2024-July 2026

- Conduct mixed-methods research on evolving drug supply trends and harm reduction practices, including nationwide mail-based drug checking and characterization of emerging substances (e.g., medetomidine, xylazine). Lead qualitative arm of FDA-funded study of community overdose response (#75F40122C00193). Co-develop and write grant proposals for federal agencies and private foundations, contributing to \$600K+ in funding including FORE Foundation award for drug checking laboratory network harmonization.

UNC-Chapel Hill, Dept. of Health Behavior

Chapel Hill, NC

NRSA Predoctoral Fellow

2023-2024

Project: “Determining the Feasibility and Acceptability of a Novel Stigma Resistance Text Message Intervention for People who Use Drugs” (NIDA F31DA058452, PI Sibley)

- Developed and pilot-tested an automated text message intervention to reduce self-stigma among people who use drugs (Project RESTART).
- Designed intervention using modified Intervention Mapping approach, integrating evidence-based psychotherapeutic modalities and health communication theory.
- Conducted formative qualitative interviews (n=22) to identify salient stigma-related beliefs and inform message development.
- Implemented four-week single-arm feasibility trial (n=30) demonstrating high acceptability and preliminary effectiveness (Cohen's d: 0.50-0.56).
- Led all aspects of study implementation including IRB coordination, recruitment, data collection, analysis, and manuscript preparation.

UNC-Chapel Hill, Dept. of Health Behavior

Chapel Hill, NC

Graduate Researcher

2018-2024

Project: “Implementing a Community-Based Response to the Opioid Epidemic in Rural Ohio” (NIDA UG3/UH3DA044822, mPIs Miller, Go)

- Coordinated intervention implementation and evaluation for multi-county study of opioid use in rural Ohio. Duties included overseeing service delivery plan implementation, community advisory board planning, grant writing, stakeholder meeting facilitation, data analysis, manuscript preparation, and IRB coordination. Wrote and managed grant supplement to develop emergency planning protocols for harm reduction community.

UNC-Chapel Hill, Dept. of Epidemiology

Chapel Hill, NC

Graduate Researcher

2023 – 2024

Project: “Risk and Protective Factors of Polydrug Overdose in North Carolina” (CDC R01CE003471, mPIs Ranapurwala, Pence)

- Managed data collection and analysis for qualitative study of polysubstance overdose in North Carolina. Duties included interview guide development, IRB coordination, interviewer training, managing data collection at geographically diverse harm reduction sites, and overseeing manuscript preparation among a team of research associates.
- Led conceptualization and preparation of qualitative aim of grant application.

UNC-Chapel Hill, Injury Prevention Research Center

Chapel Hill, NC

Graduate Researcher

2023 – 2024

Project: “Understanding Overdose Through Scientific Innovation” (FDA BAA-22-00123, mPIs Dasgupta, Slavova)

- Co-coordinated qualitative aim of multi-site national study of naloxone administration among people who use drugs accessing harm reduction programs. Duties included interview guide development, community engagement, and IRB coordination.

UNC-Chapel Hill, Div. of Infectious Diseases

Chapel Hill, NC

Graduate Researcher

2020 – 2022

Project: “Long-Acting Injectable Antiretroviral Therapy for HIV Treatment among Persons who Inject Drugs in Vietnam: An Acceptability and Feasibility Study” (HPTN U01-AI068619, co-I: Rutstein)

- Coordinated exploratory study of feasibility/acceptability of injectable antiretroviral treatment among people who use drugs in Vietnam. Duties included interview guide development, interviewer training, IRB coordination, data analysis, and manuscript preparation.

TEACHING EXPERIENCE

University of North Carolina at Chapel Hill

Chapel Hill, NC

Graduate Teaching Assistant, Health Behavior

HBEH 860: Research Proposal Development

Spring 2023

HBEH 811: Development and Evaluation of Health Promotion and Disease Prevention Interventions

Fall 2022

Emory University

Atlanta, GA

Teaching Assistant, Biology

BIOL 141 & 142: Introduction to Biology

2008 – 2010

PROFESSIONAL EXPERIENCE

Centers for Disease Control & Prevention

Atlanta, GA

Fellow, Division of Overdose Prevention

May-September 2023

- Developed comprehensive substance use stigma reduction guide disseminated to Overdose Data to Action (OD2A) recipients.

Granville-Vance Public Health

Oxford, NC

Capstone Intern

August 2019-April 2020

- Developed sustainable substance use and overdose data dashboard using R, Tableau, and multiple regional data sources, including the NC DETECT surveillance system.
- Developed sequential intercept map for system encounters of local people who use drugs.

Portsmouth City Health Department

Portsmouth, OH

Practicum Intern

May-August 2019

- Facilitated development of regional Community Health Improvement Plan. Achievements included recruiting 81 participating stakeholders, facilitating six planning meetings, drafting three health priority work plans, and contributing 17 pages of content

to the final document. The plan was included in the health department's successful national accreditation process a few months later.

- Created countywide web-based community resource guide for individuals with substance use disorders, including GIS map of organizations ordered by treatment modality.

The College of New Jersey

Senior Coordinator for Research & Initiatives,

Center for Community Engaged Learning and Research

Ewing, NJ

July 2013-August 2018

- Facilitated and directed research for community-based coalitions Trenton Prevention Policy Board and Mercer County Reentry Task Force.
- Coordinated and coached Next Generation Community Leaders program, annually preparing youth to design and implement a sustainable health project for the community.
- Developed and implemented opportunities for collaboration between faculty and students at TCNJ and non-profits and community members in Trenton, NJ area.
- Co-designed and coordinated 15-20 upper-level community-based research courses annually, recruiting faculty, non-profits, and community members for mutually beneficial partnerships.
- Created and managed Community-Based Academic Internship and Summer Community Leaders programs, which recruit, train, and place 50 capacity-building interns in area non-profits annually.
- Supervised Bonner Community Scholars, AmeriCorps VISTA members, and interns.
